So you want to start a Math Teachers’ Circle!

This organizer toolkit contains a wealth of materials to help you start a successful, self-sustaining MTC:

- Activities developed over 8 years of AIM’s “How to Run a Math Teachers’ Circle” workshops
- Documents from MTCs across the country
- Articles from our newsletter

AIM also provides seed funding and planning support to selected groups. Applications are available at www.mathteacherscircle.org/start-a-circle.

Getting started

Time to prepare: 3 - 6 months

Host institution: A site that will provide space for 6 - 8 MTC meetings each school year (e.g., a mathematics department, school district office, or community center)

Team members: 2 middle school teachers and 2 mathematics professors

All documents and activities contained in this toolkit are available for download at: http://tinyurl.com/MTCtoolkits
